Jamestown BPU Issues 2014 Annual Water Quality Report

The Jamestown Board of Public Utilities (BPU) water quality report has been issued for the year 2014 and is posted on the utility website at www.jamestownbpu.com.

Each year, the BPU prepares this required report, designed to provide consumers with information on the quality and testing of the water delivered by the utility's water system.

The report is available with one click at www.jamestownbpu.com/about/news/AWQR2014 or by accessing a link on the right side of the home page under "Publications."

Hard copies of the annual water quality report may be requested by calling BPU Communications at 661-1680.
