

RESIDENTIAL DUAL METER PROGRAM

2016

Welcome to the **Residential** Dual Water Meter Program being run by the Board of Public Utilities to help reduce sewer bills for outside watering needs! This is our 14th year running this program and below you will find important information in regard to this program.

This program is being run from **May 1, 2016** through **September 30, 2016** and will run in whole monthly increments for ease of billing. A beginning deposit of \$50.00 is required when you pick up the meter and this deposit will be refunded to your account *after* the program ends and meter has been returned. Customers must have ***both*** water and sewer service with the BPU. Due to limited number of dual meters available, only one meter per *residential* customer.

Your water account will be charged a fee of \$7.50 for the first month you have the dual meter. The monthly charge beyond the first month will be \$2.00 for each month you continue to have the dual meter. At the end of the program, your sewer credit will be figured and applied to your account.

Customers with Dual Meters must return the meter to the Customer Service Department of the Board of Public Utilities by **October 14, 2016** or you forfeit your deposit and any sewer credit earned. If the meter is damaged, the deposit will be used to repair the meter.

This service will be available only to those residents whose accounts are **current**.

Warning: Before proceeding with this program, it will take 8 units of sewer credit to actually receive a benefit from this program.
